# LETTER OF RECOMMENDATION

To Whom It May Concern,

It is with great pleasure that I recommend **Safia Rabia Alkhair Aljabri** for any position. I taught Safia Rabia Alkhair Aljabri in the Software Engineering program at the University of Technology & Applied Sciences, and had the opportunity to observe her academic capabilities and professional demeanor closely.

During her time in the program, Safia consistently demonstrated a high level of intellectual curiosity and commitment. She was an exceptionally active student, not only excelling in rigorous coursework covering topics such as data structures, algorithm design, and software architecture, but also engaging deeply with the course. Her technical foundation in software engineering is robust and practical, setting her up for success in any future endeavor.

A standout aspect of Safia's tenure was her effective performance as a Course Project Leader. In this capacity, she was responsible for guiding multi-person teams through complex, semester-long development cycles. This required far more than just technical knowledge; it demanded strong organizational skills, communication, and conflict resolution. Safia excelled at these tasks, ensuring project milestones were met, code quality was maintained, and team members were motivated and collaborating effectively. She consistently demonstrated the ability to translate conceptual requirements into tangible, working software solutions.

Safia possesses the ideal combination of technical skill, dedicated work ethic, and proven leadership ability. She is highly adaptable, quick to learn new technologies, and a professional who thrives in a team environment. I confidently recommend Safia without reservation. Please feel free to contact me if you require any further information.

Sincerely,

15.10.25

## LETTER OF RECOMMENDATION

To Whom It May Concern,

I am writing to recommend *Safia Rabia Alkhair Al Jabri* for higher studies or any position. I have had the privilege of being Safia's lecturer at the University of Technology and Applied Sciences, Shinas during which I have had ample opportunity to observe her academic skills, and character.

She is a brilliant student who consistently demonstrates a strong commitment to her education. She has shown good academic records, achievements and consistently going above and beyond in both class discussions and independent projects.

One of the most remarkable qualities of Safiya is her ability to work collaboratively with industry projects. Her communication skills, empathy, and problem-solving abilities make an asset to any team or project. She also takes responsibility for learning, regularly seeking feedback and actively improving her performance.

I found, she is a respectful, responsible, and hardworking individual who embodies the values of integrity and kindness. She consistently demonstrates a high level of maturity and perseverance in overcoming challenges, and I am confident that she will bring this same dedication and enthusiasm to any opportunity she pursues.

I wish all the best for her future endeavor. If you require any further information, please feel free to contact me at justin.rajasekaran@utas.edu.om .

Sincerely,

M.Justin Rajasekaran
**Lecturer, Software Engineering and Data Technology Unit**
